

Resistance Newspaper Activity

You are the editor of a local Resistance newspaper and need to get the next issue out. Your newspaper needs to keep the local community informed of your group's activities and of the Allied progress throughout France and the rest of Europe. Choose the date and region of France in which you operate. Based on that decision, explain your impact on the region and the campaign while recruiting new members to join your cause.

Your task is to complete the front page of your newspaper. Include headlines and subheadlines, at least two articles, and at least two images (political cartoons, advertisements, etc).

In your paper, be sure to use the *ABMC World War II: A Visual History Interactive Timeline* and other materials from class to support your choices.
